PROFESSIONAL PROFILE

Senior Systems Engineer with over 20 years of experience in advanced technical support, systems administration, and identity management. Certified specialist in **iManage solutions** (Cloud and On-Premises) and integration with **Microsoft 365** environments. Expert in resolving critical incidents using **ITIL methodologies**, optimizing databases with **SQL**, and coordinating technical teams focused on strict SLA compliance.

TECHNICAL SKILLS

- **Document Systems:** iManage Work (Cloud/On-Premises), iManage Drive, RAVN Indexer, Litera Compare, Threat Manager, and SPM.
- **Databases:** SQL Server, Transact-SQL, advanced query development, data insertion, modification, and deletion.
- **Identity and Access:** Active Directory, Microsoft Exchange, GPO creation/modification, user roles, and permissions management.
- **Methodologies and ITSM:** ITIL V3, Change Management, SLA compliance, ticketing tools (Halo, Spiceworks, Remedy, HPSC/HPSM, ServiceNow/ITSM).
- **Systems and Networks:** Windows OS and Linux administration, Citrix environments, VPN connections (Forticlient, F5, GlobalConnect), remote control tools, and VMWare virtual machines.

PROFESSIONAL EXPERIENCE

Senior Support Systems Engineer | *Lexsoft Systems* | Feb 2016 – Jan 2026

- **Advanced Platform Management:** Provided first and second-level support for the iManage Work document management system (On-Premises and Cloud), resolving complex incidents via Halo, SpiceWorks, and official iManage support.

- **Database Maintenance:** Executed advanced SQL queries for the iManage DMS database to ensure data integrity, updates, and optimization.
- **Integration and Connectivity:** Implemented and supported integrations between iManage Work and Microsoft 365, managing secure remote access via VPNs (Forticlient, F5, Citrix).
- **Technical Training:** Delivered specialized coaching to clients on the iManage suite (Desktop, Web, Cloud iManage, Drive, RAVN, IDOL), improving adoption and reducing recurring incidents.

NSU Service Desk - Alarms Monitoring | *BT España* | Jun 2013 – May 2015

- **Critical Monitoring and Incidents:** Actively monitored infrastructure alarms using Zabbix and Ossim, documenting events via scripts and managing immediate escalation to engineering groups.
- **SQL Support:** Developed database queries to diagnose and resolve technical network problems for clients.
- **SLA-driven Management:** Coordinated and resolved critical national and international incidents using ITSM tools (Remedy, OneITSM, EARS) to guarantee service level agreements.

Technical Support (English) | *Bank of America / AVANTCard (Glokal Consulting)* | Oct 2012 – May 2013

- **Identity and Access Administration:** Managed user onboarding, offboarding, and modifications via Active Directory and Exchange servers, including the creation and assignment of GPOs.
- **Cross-platform Support:** Resolved access incidents for standard and VIP users in Spain and Ireland on AS/400 and Zabbix Linux internal consoles.

Commercial Channels Service Desk Coordinator | *Telefónica (OESIA)* | Oct 2012 – Dec 2012

- **Team Leadership:** Coordinated and supervised a team of 5 technicians managing incident mailboxes for Telefónica's commercial platforms and web portals.

Change Management Coordinator | Unión Fenosa (Cibernos Outsourcing) | Jul 2008 – Dec 2009

- **Production Deployment Control:** Managed end-to-end implementations, migrations, and technical system updates in pre-production and production environments.
- **Governance and Change Committees:** Planned and led Pre-Implementation meetings with project leaders and technical areas, drafting technical minutes and closure reports.
- **Multidisciplinary Coordination:** Collaborated with infrastructure areas (Networks, Windows, Storage) to ensure the safe deployment of applications.
- **Infrastructure Logistics Management:** Supervised the technical relocation of critical hardware and servers to the data center.

CERTIFICATIONS AND COMPLEMENTARY TRAINING

- **Cloud Systems Architecture and Development & Data Engineering IFCD0078** | Instituto Tajamar – *Comunidad de Madrid (January – October 2026)*
- **Microsoft Certification DP-600** - Associate in Fabric Analytics | *Microsoft (Agust 2026)*
- **Microsoft Certified DP-700** - Fabric Data Engineer Associate | *Microsoft (July 2026)*
- **Microsoft Certified DP-900** - Microsoft Azure Data Fundamentals | *Microsoft (July 2026)*
- **Microsoft Certified AB-900** - Microsoft 365 Copilot & Agent Administration | *Microsoft (May 2026)*
- **Microsoft Certified SC-900** - Microsoft Security Fundamentals | *Microsoft (April 2026)*
- **Microsoft Certified AZ-900** - Microsoft Azure Fundamentals | *Microsoft (March 2026)*
- **iManage Cloud Onboarding Technical Specialist** | *iManage (2025)*
- **iManage Security Policy Manager 1.5 Certified** | *iManage (2020)*
- **iManage Work 10 Indexer Powered by RAVN Certified** | *iManage (2020)*

- **Querying Data with Transact-SQL (MOC-20761A)** | *Comunidad de Madrid (2019)*
- **iManage Certified Systems Engineer** | *iManage (2016)*
- **Certificate of Professionalism in Computer Security (IFCT0109)** | *Comunidad de Madrid (2015)*
- **ITIL V3 Fundamentals** | *EXIN Certification / Punto ES (2010)*

ACADEMIC BACKGROUND AND LANGUAGES

- **Bachelor's Degree in Systems Engineering** | *Universidad Tecnológica del Perú (1998 – 2003)*
- **Professional Technical Diploma in Computing and Informatics** | *Instituto Superior Tecnológico IDAT*
- **Languages:** Spanish (Native) | English (TOEIC B2 Certification - Instituto San Román)
